

REGIONAL PRODUCE PARTNERSHIP

HIGH QUALITY & CUSTOMIZABLE PROGRAM TAILORED TO FIT YOUR NEEDS

Specialty & Local

Produce Alliance works with 100+ distributors nationwide that provide quality and locally sourced produce from the fields of the grower to the plate of the consumer. We have a rolodex of over 2,500 local farms which have been vetted for food safety and quality assurance and are settled with a 250-mile radius of your distributor(s). The variation of commodities is endless from delicate microgreens and berries to locally sourced squash from the Midwest. The number of growers varies by region, but that does not stop the Produce Alliance team from getting locally sourced produce to your door.

Food Safety & Quality Assurance
